Press Release

Walk the Dog scores a hat trick with the 'Special Merit Award'

Walk the Dog, the Berkhamsted based pet care business, has scored a hat trick by receiving The National Association of Registered Pet sitters and Dog Walkers (NARP) Special Merit Award for the third year in a row!

The Special Merit Award is given to businesses in the pet care industry in recognition of excellence in the field of animal care and for outstanding customer service. In order to achieve this award, Walk the Dog had to provide testimonials from clients covering the range of services they provide, these include; dog walking, pet sitting, dog training and pet products. Based on the quality of the testimonials, NARP then decide which businesses will receive the award each year.

Walk the Dog was established in 2007 by Hanne Grice. Hanne and her qualified, caring and trustworthy team work one on one with their clients' pets to ensure their four-legged friends receive the love, care and attention they need, giving pet owners peace of mind.

Hanne Grice says, "I believe it's our attention to detail that makes us stand out from crowd. Every Walk the Dog pet has their own blog page with photographs so their owners can read what their pet's been up while they're at work or on holiday, we also provide regular newsletters, hold fundraising events and competitions, and even bake cookies for all our pets as a 'thank you' at Christmas."

So it's a round of 'ap-paws' for Walk the Dog's triple award win!

Notes to Editors;

- Walk the Dog is an award winning pet services business based in Berkhamsted, Hertfordshire. Visit www.walk-the-dog.net
- For more information about Walk the Dog's dog behavioural advice and training, visit Hanne Grice, Dog Listener at <http://www.doglistener.tv/>
- NARP sets the standards for the Pet and House sitting industries. There are over 8,000 pet sitters registered with NARP throughout the country. For more information about The National Association of Registered Pet sitters (NARP) visit <http://www.dogsit.com/>
